Forecast For Scotland
Issued by Met Office Aberdeen
at 0400 on Thursday 28 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain in many places today, drier later. Northwest brightest.

Today:
Cloudy across southern, central and eastern Scotland with rain, heavy at times especially in the south. Rain dying out this afternoon. Northwest brighter with a few showers. Still quite mild.

Tonight:
Mainly dry this evening. Further outbreaks of rain spreading north through the night, although more northern areas may stay mainly dry with just the odd shower.

Friday:
Further areas of rain moving north across most areas during the day, becoming drier across the south later.

Outlook for Saturday to Monday:
Remaining unsettled with further spells of rain, becoming prolonged and heavy in the south and east on Sunday.
